DIRECTOR
Jami Cook

NOTICE

With funding provided by a grant received by ALETA in 2017, every student in Class 2019-A and after will receive an Individual First Aid Kit (IFAK). Each IFAK contains a chest seal, combat gauze, the newest generation CAT tourniquet, and a pair of Black Talon gloves. ALETA is issuing these kits, worth around \$150.00 apiece, at no cost to students or their departments.

Training supervisors must approve issuance of the IFAK to their students. Each department is not responsible for inventorying or keeping accountability for these kits. The IFAK is issued to the student as the end-user of the item. If your department chooses to not allow ALETA to issue this kit to your student, they will still receive the same training but will not receive the IFAK.

Please check one of the following boxes and sign.

Yes, I would like for my student to receive a free IFAK.

No, I would not like for my student to receive a free IFAK.
