Old Business:
There was a different county of smoke detectors by the secretary and Cheryl Reed. Ronnie’s count was 593 and Cheryl count was 546. Ronnie and Lindsey will go count the detectors after the meeting and see what is in storage.

New Business:
Stacy Caplener gave a report on the 20/20 Summit meeting in Jacksonville. Stacy told the board the meeting was a good meeting and had a lot of good information.

Smoke detectors granted by the commission. Some discussion was brought up about whether fire departments that received these should have a SOP/SOG in place on how there are to be installed. Don stated he believes this could be a recommendation rather than be mandatory. Lindsey and Stacy thought it would be a good suggestion and we could put the SOG/SOP on our web site if anybody wanted to use them. David Fletcher made a motion to have it mandatory for any departments to receive detectors have a SOP/SOG on how the detectors are to be installed in homes and send a copy of it along with the grant for detectors. The motion died for lack of second. No action was taken.
Ronnie Rogers made a motion to have the Home Fire Safety Checklist that Travis Hollis presented be put on our web site in case some departments would like to use it. Rachel Nix seconded. Unanimously approved.

Some discussion was brought up on how many smoke detectors should be placed in homes. There was no motion on this topic and no action was taken.

Discussion on whether to buy more smoke alarms was brought up by Lindsey. Ronnie suggested that maybe we contact Ben Hammond with 20/20 and see if they had some more detectors that they could give us. Travis Hollis is going to check on this for the commission.

Travis Hollis is going to work on getting information from NFIRS for the years 2014, 2015 and 2016 on fire deaths and injuries around the state. He will present the information to the commission so maybe we can use this information to help with fire prevention in the state.
