Information Technology Section: The Information Technology Section supports approximately 1,200 desktops and laptop computers and peripheral devices along with 15 servers. The Section is responsible for all data connectivity and IT operations throughout Arkansas State Police headquarters, troop locations, satellite office locations, and all mobile highway patrol units. Highway Safety Office: The Highway Safety Office administers state and federal highway safety funds and oversees highway safety program efforts supported by these funds for the State of Arkansas. The Highway Safety Office develops an annual highway safety plan, which identifies traffic-related safety problems in Arkansas and recommends programs most effective in reducing traffic fatalities, injuries, and crashes. A performance plan was prepared which describes the state's highway safety problem identification process and identifies the State's highway safety benchmarks and goals. The highway safety plan describes the strategies for meeting the goals outlined in the performance plan and allocation of highway safety funds.

The Highway Safety Office implemented projects and facilitated activities and programs which contributed toward reaching the State's goals. The Office recognizes that the achievement of quantified goals is dependant not only on the work of its office, but also on the collaborative and ongoing efforts of a multitude of governmental and private entities involved in improving highway safety in Arkansas. Special Operations Section:

- ❖ **Marijuana Eradication Program:** The Marijuana Eradication Program is grant funded and designed to curb marijuana growth and usage in Arkansas. The program made a total of 32 arrests; seized 10 weapons and \$10,000 in cash assets; flew 400 helicopter hours with the Arkansas National Guard and 46 helicopter hours with the Arkansas State Police over 29 counties; and seized 46,030 plants that were turned in by counties, special operations, and commercial contractors.
- ❖ **Special Weapons and Tactics (SWAT):** SWAT consists of a group of highly motivated officers from various sections within the department. These individuals are involved in a minimum of 160 additional training hours per year geared toward specific threats. While the majority of the Arkansas State Police SWAT callouts are hostage/barricaded situations, the officers are trained in various less-than-lethal methods, high-risk vehicle assaults, linear (bus/airplane) assaults, and commercial and residential entry techniques. Team members are readily able to complete any mission set before them by the department, and they are willing to assist any federal, state, county, or local department that requests help. The team members are dispersed across the state which allows for immediate response and containment to tactical situations by several members, while the remaining team members respond to the location. Many team members are instructor certified and help with training at the troop level and with the training of new recruits. In 2007, SWAT was activated 5

times and was placed on stand-by status twice. Two of the callouts this year involved hostage type situations where shots were fired. The team also assisted with hurricane relief at Fort Chaffee to help state and local officers with evacuees.

- ❖ **Crisis Negotiation Team:** The Crisis Negotiations Team (CNT) responds every time SWAT is activated. The CNT is comprised of three teams that are assigned to one of three regions of the State. When activated, a 6 member team is dispatched while the other teams are placed on stand-by status in case the call becomes protracted. The CNT's primary mission is to resolve critical situations through communications. Each team member is required to complete two separate weeks of specialized training provided by the FBI. CNT members are also required to attend two days training on a bi-monthly basis.

Bomb/Arson Unit: The Bomb/Arson Unit responded to 79 incidents. These incidents included the following:

- ❖ Render safe procedures on actual improvised explosive devices 20
- ❖ Examination of suspected improvised explosive devices 21
- ❖ Recovered explosives 9
- ❖ Destruction of contraband explosives 21
- ❖ Bomb threat responses 2
- ❖ Post blast investigations 2
- ❖ Arson "origin and cause" investigations 4

Internet Crimes Against Children Section: The Internet Crimes Against Children Section is a grant funded task force implemented to overtly and covertly investigate internet crimes against children, as well as provide computer forensic assistance to aggressively prosecute such crimes, and public education to help prevent internet crimes against children. Additionally, the Task Force provides proactive tools, resources, and information to educate parents, teachers, and children about Internet safety and victimization prevention.

Hot Line Section – The Hot Line Section, which operates 24-hours a day, 7-days a week, is authorized one (1) Administrator, four (4) supervisors and twenty-eight (28) intake operators. This section operated with an average of 22 operators during 2007.

	2003	2004	2005	2006	2007
■ Calls received	32,293	34,775	45,167	47,674	50,301
■ Accepted Reports	20,220	22,192	25,587	27,298	29,765

Investigations: Allegations accepted by the Hot Line are divided into categories for investigation, pursuant to an agreement with DHS. This resulted in 6,477 cases being assigned by the Hot Line to investigators in the CACD Investigations Section.

Of the 6,477 cases that were accepted by the Hot Line for investigation by the CACD, 8,131 Priority I allegations and 1,869 Priority II allegations were incorporated in these cases. (Referrals often have more than one allegation to address during the investigation. Priority I referrals are the most serious allegations and less serious allegations are categorized as Priority II cases.)

The types and number of Priority I allegations were:

❖ Abandonment – 22	❖ Juvenile aggressor - 18
❖ Abuse w/a deadly weapon – 145	❖ Malnutrition – 3
❖ Bone fracture – 102	❖ Med. neg. of Dis. Infant - 0
❖ Brain damage/skull fracture – 45	❖ Oral sex – 666
❖ Burns/scalding – 231	❖ Poison/noxious substance – 108
❖ Cuts, bruises, welts – 157	❖ Pornography – 320
❖ Death – 19	❖ Sexual contact – 3,056
❖ Failure to protect – 298	❖ Sexual exploitation – 140
❖ Failure to thrive – 4	❖ Sexual penetration – 2,098
❖ Immersion – 11	❖ Subdural hematoma – 33
❖ Indecent exposure – 273	❖ Suffocation – 301
❖ Internal injuries – 7	❖ Threat of harm – 74

Of the total number of Priority I allegations, 6,553, (81%) involved sexual abuse, indecent exposure and pornography.

CACD investigators closed 6,302 cases in 2007. Of the closed cases, 2,616 (42%) were found to be 'true'.

The finding of 'true' means there was a preponderance of evidence that indicated the allegation(s) was true. An 'unsubstantiated' finding means the evidence was insufficient to support the allegation(s). Investigations closed with a finding of 'true' were forwarded to the appropriate prosecuting attorney.

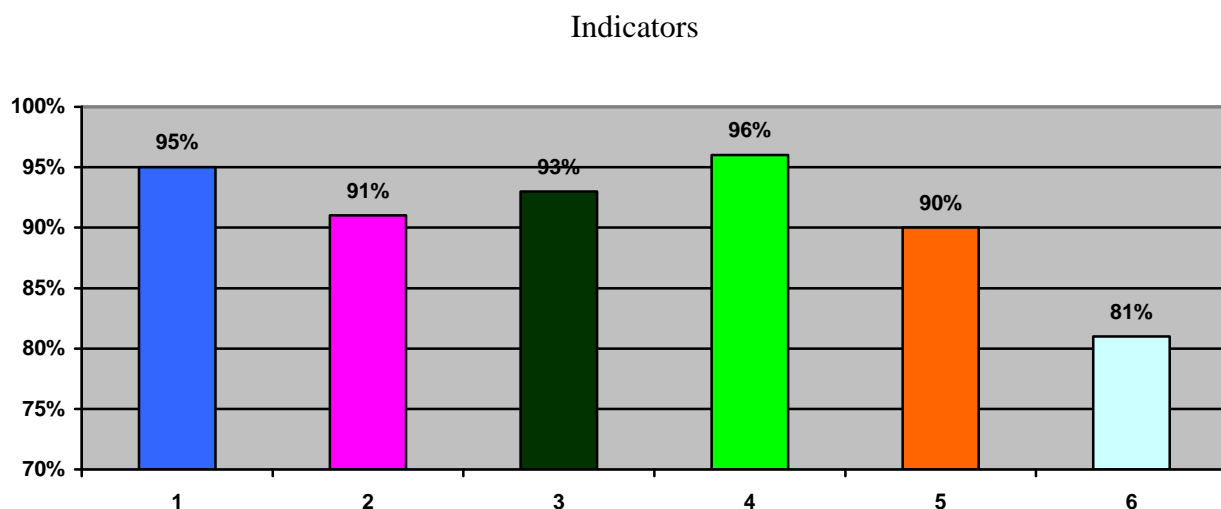

The Investigation Section is authorized 63 civilian Investigator positions, nine Area Supervisors and one overall Administrator. This Section operated with an average of 60 investigators during the year.

Performance Indicators: The CACD is evaluated on eight performance indicators of compliance with Angela R. requirements, which were spelled out in a consent decree in the 1990s during federal court proceedings. They also are a part of an agreement between CACD and DHS.

The indicators are:

1. The alleged victim(s) in Priority I reports are seen by the Investigator within 24 hours.
2. The alleged victim(s) in Priority II reports are seen by the Investigator within 72 hours.
3. All children in the home are seen during the investigation.
4. The alleged victim(s) are interviewed (or observed) outside the presence of the alleged offender.
5. Parents/caretakers are interviewed in all investigations.
6. Investigations are concluded within 30 days of receipt of the allegation.

By contract with DHS, CACD is required to meet a minimum of 85% compliance in each performance indicator. The following chart shows the average compliance for the year 2007. The line numbers above are used as identifiers.
