Definitions

- **Annual Certification** – Each State and Law Enforcement Agency (LEA) is required to conduct an annual inventory physically on all equipment obtained through the LESO Program. The Annual Inventory begins 1 July each year. Consult your State Coordinator for your State's internal due date.
- **Controlled Equipment** – As defined in your State Plan of Operation, equipment obtained through the LESO Program with a Demil code of B, C, D, E, F, G and Q3. This equipment will remain in assigned status for the entire time that the LEA has the equipment. LEAs must use adequate security and accountability measures for all controlled equipment. Demil code A and Q6 equipment is conditionally transferred to the LEA and will be controlled for one year from the ship date. The LEA must account for this equipment for one inventory cycle, and after one year the equipment will systematically be placed in a closed status on the LEA inventory.
